AUGUSTAN, EL CAMINO AND GROSSE SEWER AND WATER REPLACEMENT

Dear Residents:

The City of Santa Rosa is finalizing construction plans to replace the existing sanitary sewer and water main in Augustan Ave from East Haven Dr. to Belmont Ct, El Camino Way from Augustan Ave to Grosse Ave and Grosse Ave from Dowling Court to El Camino Way. The project is anticipated to take 4 to 5 Months with an estimated start date of May/June 2018 (see reverse for Project Limits).

Completion of this project is vital to the integrity of our community infrastructure. Some of the benefits this project will bring to your neighborhood include:

- Upgraded pipe materials to help improve the sewer and water system's performance.
- New sewer lines to (1) reduce the potential for blockages due to tree root intrusion and significantly reduce the need for repairs, and (2) reduce groundwater infiltration into the sewer system, which helps maintain the effectiveness of our Wastewater Treatment Plant.
- New water lines to reduce the risks of breakage, and to help protect your home and property by improving water flows and pressure to fire hydrants.
- A storm drain catch basin will be added and others modified to try to improve the storm drain system.
- The roadway will be reconstructed and new pedestrian ramps will be installed within the limits of the project.

Though temporary impacts to your neighborhood are inevitable, our goal is to improve our community infrastructure without creating any more disturbance than necessary. The Contractor will be advised that daily and weekly activities such as mail delivery and garbage service must continue during the project. Please feel free to contact me at (707)543-4519 (or e-mail at awilt@srcity.org) if you have any questions or concerns.

We will update you with another letter approximately two weeks prior to the start of construction. In addition to written communications like this, the City has a special website where you can track the progress of this project. Simply go to www.srcity.org/CIP, view the map, and click on the blue map pin that corresponds to this project. You can also view the list of all Capital Improvement Program projects and find this project under Project ID No: 01568.

Sincerely,

ANDREW WILT
Associate Civil Engineer
