PINER CREEK CROSSING- HAWK

Dear Residents:

The City of Santa Rosa is contracting with Mike Brown Electrical Co. for construction of the above referenced project. Construction will begin in Spring 2026 and last approximately 7 weeks. The project will install a High-Intensity Activated Crosswalk (HAWK) signal for improved pedestrian crossing across Fulton Road at Greenvale Court (see reverse for Project Limits).

Completion of this project is vital to the integrity of our community infrastructure. Some of the benefits this project will bring to your neighborhood include:

- Protected pedestrian crossing
- Pedestrian activated crossing, HAWK signals only activate when a pedestrian activates the signal
- Increased driver attention as the HAWK signal remains dark until activated by a pedestrian crossing the roadway

Though temporary impacts to your neighborhood are inevitable, our goal is to improve our community infrastructure without creating any more disturbance than necessary. The Contractor will be advised that daily and weekly activities such as mail delivery and garbage service must continue during the project. Construction will take place Monday – Friday from 8:00 AM to 5:00 PM, with staging activities potentially occurring before 8:00 AM. If you have special needs regarding access, or if you have any questions or concerns, please contact the Construction Manager or me at the following numbers:

Jared Wurtz, City Inspector
Felicia Ong, City Project Manager

(707) 328-2888, Cell
(707) 495-2147, Cell

If you are aware of other occupants on your property who may not receive this notice, please share this notice with them or contact me with their address and I will notify them directly.

In addition to written communications like this, the City has created a special website where you can track the progress of this project. Simply go to www.srcity.org/CIP, view the map, and click on the blue map pin that corresponds to this project. You can also view the list of all Capital Improvement Program projects and find this project under Project ID No: 01643.

The City values your feedback. Please tell us how we did in your neighborhood by completing a post-construction survey. The survey will be delivered by a City representative to homes and businesses in close proximity to the construction site upon completion of this project. You may also access the survey online at www.srcity.org/construction.

Sincerely,

FELICIA ONG
Assistant Engineer
