EAST HAVEN DRIVE SEWER AND WATER IMPROVEMENTS - ELEANOR AVENUE TO EAST FOOTHILL DRIVE (C01684)

Dear Residents:

The City of Santa Rosa is finalizing construction plans to replace the existing aged sewer and water mains with 8" sewer and 8" water main in Eleanor Avenue, in East Haven Drive from Eleanor Avenue to East Foothill Drive, and in East Foothill Drive from Thomas Drive to Siesta Lane. The project is anticipated to start in May 2023 (see reverse for Project Limits).

Completion of this project is vital to the integrity of our community infrastructure. Some of the benefits this project will bring to your neighborhood include:

- Upgraded pipe materials to help improve the sewer and water system's performance.
- New sewer lines to (1) reduce the potential for blockages due to tree root intrusion and significantly reduce the need for repairs, and (2) reduce groundwater infiltration into the sewer system, which helps maintain the effectiveness of our Wastewater Treatment Plant.
- New water lines to help protect your home and property by improving water flows and pressure to fire hydrants.
- New roadway reconstruction; removing existing pavement and replacing with 0.55' full depth asphalt concrete.

Though temporary impacts to your neighborhood are inevitable, our goal is to improve our community infrastructure without creating any more disturbance than necessary. The Contractor will be advised that daily and weekly activities such as mail delivery and garbage service must continue during the project. The Contractor will be required to maintain traffic through the work zone at each location and residential lane closures will be restricted to the hours between 8:30 a.m. and 4:00 p.m. Please feel free to contact me at (707) 543-3866 (or e-mail at SMathews@srcity.org) if you have any questions or concerns.

We will update you with another letter approximately two weeks prior to the start of construction. In addition to written communications like this, the city has a special website where you can track the progress of this project. Simply go to www.srcity.org/CIP, view the map, and click on the blue map pin that corresponds to this project. You can also view the list of all Capital Improvement Program projects and find this project under Project ID No: 01684.

Sincerely,

SARA MATHEWS
Assistant Engineer
