RESERVOIR (R7) ROAD ACCESS STABILIZATION REPAIRS

Dear Residents,

The City of Santa Rosa is contracting with Ghilotti Construction Company for construction of the above referenced project. Construction should begin sometime in June 2020 and continue to approximately March 2021. (see reverse for Project Limits).

Completion of this project is vital to the integrity of our community infrastructure. Some of the benefits this project will bring to your neighborhood include:

- The upgrading of the existing storm drain system for a portion of Yerba Buena Road.
- Maintaining access to a vital piece of the City's potable water infrastructure.
- Improve erosion control with the installation of a retaining wall along the access road.

Although temporary impacts to the area are inevitable, our goal is to improve our community infrastructure without creating any more disturbance than necessary. The Contractor will be advised that daily and weekly activities such as mail delivery and garbage service must continue during the project. If you have special needs regarding access, or if you have any questions or concerns, please contact the Construction Manager or me at the following numbers:

Mike Janet of Coastland, Construction Manager Cheryl Everson, City Project Manager (707) 571-8005, Office (707) 543-3869, Office

If you are aware of other occupants on your property who may not receive this notice, please share this notice with them or contact me with their address and I will notify them directly.

In addition to written communications like this, the City has a website where you can track the progress of this project. Go to <u>www.srcity.org/CIP</u>, view the map, and click on the blue map pin that corresponds to this project. You can also view the list of all Capital Improvement Program projects and find this project under Project ID No: 01801.

The City values your feedback. Please tell us how we did by completing a post-construction survey. The survey will be delivered to homes and businesses in close proximity to the construction site upon completion of this project. You may also access the survey online at www.srcity.org/construction.

Sincerely,

CHERYL EVERSON Associate Civil Engineer
