FULTON ROAD SIDEWALK IMPROVEMENTS - COLLEGE AVENUE TO SANTA ROSA CREEK TRAIL

Dear Residents:

The City of Santa Rosa is finalizing construction plans for sidewalk improvements on Fulton Road from College Avenue to Santa Rosa Creek. The project intent is to provide sidewalk to fill in a gap in the existing sidewalk along the west side of Fulton Road from College Avenue to the existing driveway for the Santa Rosa Creek Trail. The project is anticipated to take one month, with an estimated start date of fall 2017.

Completion of this project is vital to the integrity of our community infrastructure. Some of the benefits this project will bring to your neighborhood include:

- Improving pedestrian access along Fulton Road by removing the gap in the sidewalk along the west side of Fulton Road (adjacent to Sequoia Gardens), updating and providing new pedestrian curb ramps, and providing a new bus stop pad.
- Improving safety for pedestrian traffic in the area.

Though temporary impacts to your neighborhood are inevitable, our goal is to improve our community infrastructure without creating any more disturbance than necessary. The Contractor will be advised that daily and weekly activities such as mail delivery and garbage service must continue during the project. Additionally, the Contractor will be advised the driveways are to remain open at all times. Please feel free to contact me at (707) 543-3909 (or e-mail at lwelsh@srcity.org) if you have any questions or concerns.

We will update you with another letter approximately two weeks prior to the start of construction. In addition to written communications like this, the City has created a special website where you can track the progress of this project. Simply go to www.srcity.org/CIP, view the map, and click on the blue map pin that corresponds to this project. You can also view the list of all Capital Improvement Program projects and find this project under Project ID No: 01817.

Sincerely.

/s/

LISA WELSH Associate Civil Engineer
