### LOWER COLGAN CREEK RESTORATION - PHASE 3

Dear Residents:

The City of Santa Rosa is contracting with Team Ghilotti, Inc. for construction of the above referenced project. Construction will begin approximately June 16, 2025, and last approximately 5 months.

This restoration project will greatly enhance native wildlife habitat, water quality, and stream shade while reducing flood risk and improving outdoor recreation opportunities. A multi-use pathway will be constructed along the northern and western side of the channel and a pedestrian bridge will connect the new pathway to Bellevue Avenue. Most of the trees lining Monument Drive and along Bellevue Avenue will remain. However, widening and re-contouring the channel will require the removal of 166 trees within the project limits. This project includes planting and maintaining approximately 437 native mitigation trees while maintaining another 207 trees, 760 shrubs, 1,190 flowering forbs, and 5,800 grasses to enhance the riparian habitat. Two acres will also be seeded with milkweed and other nectar flowers for monarch and pollinator habitat. (See reverse for project limits).

Though temporary impacts to your neighborhood are inevitable, our goal is to improve our community infrastructure without creating any more disturbance than necessary. The Contractor will be advised that daily and weekly activities such as mail delivery and garbage service must continue during the project. If you have special needs regarding access, or if you have any questions or concerns, please contact either Construction Manager at the following numbers:

Cody Bedell, Team Ghilotti Construction Manager (415) 299-4546, Mobile  
Tom Gorman, Green Valley Engineering Construction Manager (707) 888-8064, Mobile

If you are aware of other occupants on your property who may not receive this notice, please share this notice with them or contact me with their address and I will notify them directly.

In addition to written communications like this, the City has created a special website where you can track the progress of this project. Simply go to [www.srcity.org/CIP](http://www.srcity.org/CIP), view the map, and click on the blue map pin that corresponds to this project. You can also view the list of all Capital Improvement Program projects and find this project under Project ID No: 01946.

The City values your feedback. Please tell us how we did in your neighborhood by completing a post-construction survey. The survey will be delivered by a City representative to homes and businesses near the construction site upon completion of this project. You may also access the survey online at [www.srcity.org/construction](http://www.srcity.org/construction).

Sincerely,  

Greg Dwyer (Jun 12, 2025 08:12 PDT)
