GEYSERS PIPELINE STABILIZATION - EASTSIDE ROAD

Dear Residents:

The City of Santa Rosa is contracting with Piazza Construction of Penngrove for construction of the above referenced project. Construction is anticipated to begin in July and last approximately 4 weeks (see reverse for Project Limits).

Completion of this project is vital to the integrity of our community infrastructure. Some of the benefits this project will bring include pavement and subgrade repairs as well as maintaining and protecting the Geysers Pipeline system.

Though temporary impacts to your neighborhood are inevitable, our goal is to improve our community infrastructure without creating more disturbance than necessary. To conduct the work safely and expeditiously, there is a planned, mid-week full road closure with notification posted a week in advance. During the full road closure, Eastside Road between Windsor River Road and Old Redwood Highway will be closed to through traffic. Access to properties within the planned road closure will be provided at all times, but may be subject to detours. The Contractor will be advised that daily and weekly activities such as mail delivery, garbage service and school bus service must continue during the project. If you have special needs regarding access, or if you have any questions or concerns, please contact the Construction Manager or me at the following numbers:

Eric Frye, Construction Manager
Emma Walton, City Project Manager

(707) 543-3858, Office
(707) 543-4516, Office

If you are aware of other occupants on your property who may not have received this notice, please share this notice with them or contact me with their address and I will notify them directly.

In addition to written communications like this, the City has created a special website where you can track the progress of this project. Simply go to www.srcity.org/CIP, view the map, and click on the blue map pin that corresponds to this project. You can also view the list of all Capital Improvement Program projects and find this project under Project ID No: 01952.

The City values your feedback. Please tell us how we did in your neighborhood by completing a post-construction survey. The survey will be delivered by a City representative to homes and businesses in close proximity to the construction site upon completion of this project. You may also access the survey online at www.srcity.org/construction.

Sincerely,

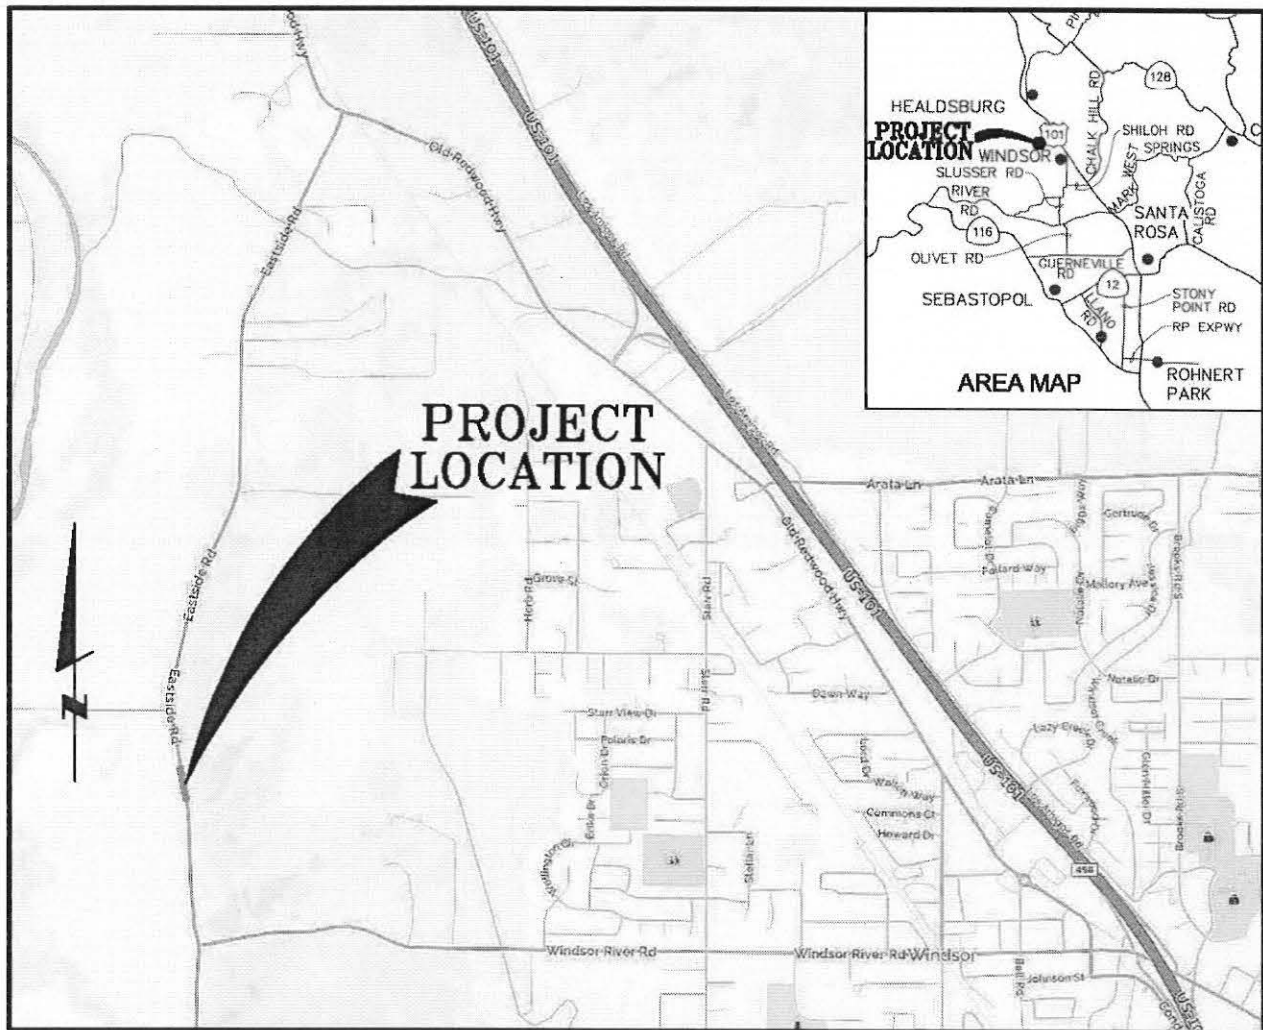

EMMA WALTON
Associate Civil Engineer
