**PUMP STATION 15 UPGRADES/CITY CONTRACT NO. C01994**

Dear Residents:

The City of Santa Rosa is contracting with Bartley Pump PM, LLC for construction of the above referenced project. Construction will begin in June 2020 and last approximately 35 weeks, which would take the project completion to February of 2021. The project will provide upgrades to our potable water pump station (see reverse for Project Limits).

Completion of this project is vital to the integrity of our community infrastructure. Some of the benefits this project will bring to your neighborhood include:

- Installation of new backup diesel generator to help protect your home and property by ensuring water flows and pressure to fire hydrants.
- Recoating interior and exterior of hydropneumatic tank and replacing outdated controls and instrumentation equipment as part of overall need to reduce maintenance and improve reliability.

Though temporary impacts to your neighborhood are inevitable, our goal is to improve our community infrastructure without creating any more disturbance than necessary. If you have any questions or concerns, please contact the Construction Manager or me at the following numbers:

Jason Smith, Bartley Pump PM, LLC Construction Manager      (707) 584-9191, Office  
Eric Frye, City Project Manager      (707) 543-3858, Office

If you are aware of other occupants on your property who may not receive this notice, please share this notice with them or contact me with their address and I will notify them directly.

In addition to written communications like this, the City has created a special website where you can track the progress of this project. Simply go to [www.srcity.org/CIP](http://www.srcity.org/CIP), view the map, and click on the blue map pin that corresponds to this project. You can also view the list of all Capital Improvement Program projects and find this project under Project ID No: 01994.

The City values your feedback. Please tell us how we did in your neighborhood by completing a post-construction survey. The survey will be delivered by a City representative to homes and businesses in close proximity to the construction site upon completion of this project. You may also access the survey online at [www.srcity.org/construction](http://www.srcity.org/construction).

Sincerely,

Eric Frye, Project Manager
