**DONAHUE, DECKER, BOYCE & PETALUMA HILL SEWER AND WATER MAIN IMPROVEMENTS  
– CITY CONTRACT NO. C02003**

Dear Residents:

The City of Santa Rosa is contracting with Team Ghilotti for construction of the above referenced project. Construction will begin in June and last approximately 16 weeks. This project will take place in two locations. At location 1, around DeTurk Park (Decker St, Boyce St, and Donahue St) existing aged sewer main will be replaced and upsized to a larger diameter pipe to meet the current city standard and prolong its life span. Additionally, 8 curb ramps will be upgraded to the current ADA standards followed by street reconstruction. At location 2, Petaluma Hill Road (Flower Ave to Frazier Ave.), the aged sewer main will be removed and replaced to prolong its life span, 10 curb ramps will be upgraded to the current ADA standards. (see reverse for Project Limits).

Completion of this project is vital to the integrity of our community infrastructure. Some of the benefits this project will bring to your neighborhood include:

- Upgraded pipe materials to help improve the sewer and water system's performance and prolong its life span.
- Eighteen pedestrian curb ramps upgraded to current ADA standards to improve accessibility.
- Decker and Boyce St will receive new pavement after the underground work is complete.

Though temporary impacts to your neighborhood are inevitable, our goal is to improve our community infrastructure without creating any more disturbance than necessary. The Contractor will be advised that daily and weekly activities such as mail delivery and garbage service must continue during the project. If you have special needs regarding access, or if you have any questions or concerns, please call me at (707) 543-3911 or email: [Dchen@srcity.org](mailto:Dchen@srcity.org).

If you are aware of other occupants on your property who may not receive this notice, please share this notice with them or contact me with their address and I will notify them directly.

In addition to written communications like this, the City has a special website where you can track the progress of this project. Simply go to [www.srcity.org/CIP](http://www.srcity.org/CIP), view the map, and click on the blue map pin that corresponds to this project. You can also view the list of all Capital Improvement Program projects and find this project under Project ID No: 02003.

The City values your feedback. Please tell us how we did in your neighborhood by completing a post-construction survey. The survey will be delivered to homes and businesses upon completion of this project. You may also access the survey online at [www.srcity.org/construction](http://www.srcity.org/construction).

Sincerely,

DANNY CHEN  
Assistant Engineer
