MENDOCINO AND MCCONNELL INTERSECTION PEDESTRIAN IMPROVEMENTS

Dear Residents:

The City of Santa Rosa is finalizing construction plans to convert the pedestrian activated flasher to a pedestrian hybrid signal beacon at the intersection of Mendocino Avenue and McConnell Avenue. The alteration will also modify intersection turn movements by prohibiting lefts from McConnell westbound to southbound Mendocino Avenue per the approved Mendocino Ave corridor plan. The project is anticipated to start fall 2018 (see reverse for Project Limits).

Completion of this project is vital to the integrity of our community infrastructure. Some of the benefits this project will bring to your neighborhood include:

- Improved accessibility for Santa Rosa High School and Santa Rosa Junior College students crossing Mendocino Avenue
- Reduced vehicular traffic speeds
- Installation of a pedestrian regulatory signal at this intersection

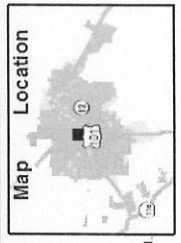

Though temporary impacts to your neighborhood are inevitable, our goal is to improve our community infrastructure without creating any more disturbance than necessary. The Contractor will be advised that daily and weekly activities such as mail delivery, garbage service and access to businesses must continue during the project. Please feel free to contact me at (707) 543-4508 (or e-mail at gbailey@srcity.org) if you have any questions or concerns.

We will update you with another letter approximately two weeks prior to the start of construction. In addition to written communications like this, the City has created a special website where you can track the progress of this project. Simply go to www.srcity.org/CIP, view the map, and click on the blue map pin that corresponds to this project. You can also view the list of all Capital Improvement Program projects and find this project under Project ID No: 02059.

Sincerely,

GRANT BAILEY, P.E.
Associate Civil Engineer
