

**JANUARY 23, 2023**

**WATER PUMP STATION 1 RETAINING WALL  
CIP Project Number: C02061**

Dear Residents:

The City of Santa Rosa is finalizing construction plans to replace expansive soils behind the retaining wall of Water Pump Station 1. Cracking in the retaining wall has been observed and replacing the soils will reduce the pressure on the walls that protect the City's water pump station. The project is anticipated to start in Summer of 2023 (see reverse for Project Limits).

Completion of this project is vital to the integrity of our community water infrastructure by protecting the pump station located at 280 Fountaingrove Parkway.

Though temporary impacts to your neighborhood are inevitable, our goal is to improve our community infrastructure without creating any more disturbance than necessary. The working hours will be between 7:00 a.m. – 7:00 p.m. on Monday through Friday. Should weekend work be necessary to offset delays in construction the Contractor is required to provide a 24-hour notice to affected residences and businesses prior to any weekend work commencing. The Contractor will be advised that daily and weekly activities such as mail delivery and garbage service must continue during the project. Lane closures will be restricted to the hours between 8:30 a.m. and 4:00 p.m. A minimum of one lane in each direction of traffic will remain open throughout construction. Please don't hesitate to contact me at (707) 543-3812 (or e-mail at [rmaeda@srcity.org](mailto:rmaeda@srcity.org)) if you have any questions or concerns.

We will update you with another letter approximately two weeks prior to the start of construction. In addition to written communications like this, the City has a website where you can track the progress of this project. Simply go to [www.srcity.org/CIP](http://www.srcity.org/CIP), view the map, and click on the blue map pin that corresponds to this project. You can also view the list of all Capital Improvement Program projects and find this project under Project ID No: 02061.

Sincerely,

Richela Maeda  
Associate Civil Engineer  
City of Santa Rosa
