**CLASS II BIKE LANE GAP CLOSURES – CITY CONTRACT NO. C02090**

Dear Residents:

The City of Santa Rosa is contracting with Bayside Stripe & Seal, Inc. for construction of the above referenced project. Construction is expected to begin in March 2020. Please see the attached map for Project Locations nearest to your address.

Completion of this project is vital to the integrity of our community infrastructure. The purpose of this project is to bring additional awareness to motorists of potential roadway use by bicyclists by installing bike lane pavement markings and signage.

Though temporary impacts to your neighborhood are inevitable, our goal is to improve our community without creating any more disturbance than necessary. If you have special needs regarding access, or if you have any questions or concerns, please contact me at (707) 543-4508 (email: [gbailey@srcity.org](mailto:gbailey@srcity.org)) or the City inspector Kevin Ryan at (707) 543-3865.

In addition to written communications like this, the City has created a special website where you can track the progress of this project. Simply go to [www.srcity.org/CIP](http://www.srcity.org/CIP), view the map, and click on the blue map pin that corresponds to this project. You can also view the list of all Capital Improvement Program projects and find this project under Project ID No: 02090.

The City values your feedback. Please tell us how we did in your neighborhood by completing a post-construction survey. The survey will be delivered by a City representative to homes and businesses close to the construction sites upon completion of this project. You may also access the survey online at [www.srcity.org/construction](http://www.srcity.org/construction).

Sincerely,

GRANT BAILEY, P.E.  
Associate Civil Engineer
