LEETE WELL REHABILITATION – 3601 LEETE AVE, SANTA ROSA CA, 95404
CIP Project Number: C02121

Dear Residents:

The City of Santa Rosa is working with Woodard & Curran for construction of the above referenced project. Construction will begin on June 19th, 2024. Working hours will be from 7:00 a.m.-5:00 p.m. This work will last approximately 6 weeks (see attached figure for Project Site).

Cleaning the well is vital to the integrity of our community infrastructure. This project will benefit your neighborhood by:

- Maintaining Emergency Water Supply infrastructure to provide reliable potable water to residents during water service interruptions.

Though temporary impacts to your neighborhood are inevitable, our goal is to improve our community infrastructure without creating any more disturbance than necessary. The Contractor will be advised that daily and weekly activities such as mail delivery and garbage service must continue during the project. There may be some noise-related disturbance while the work is going on. If you have special needs regarding access, or if you have any questions or concerns, please contact the Designer Project Manager or me at the following numbers:

Jim Strandberg, Designer Project Manager	(925) 627-4122, Office
Angel Vargas, City Inspector	(707) 543-4608, Office

If you are aware of other occupants on your property who may not receive this notice, please share this notice with them or contact me with their address and I will notify them directly.

In addition to written communications like this, the City has a special website where you can track the progress of this project. Simply go to www.srcity.org/CIP, view the map, and click on the blue map pin that corresponds to this project. You can also view the list of all Capital Improvement Program projects and find this project under Project ID No: 02121.

The City values your feedback. Please tell us how we did in your neighborhood by completing a post-construction survey. You may access the survey online at www.srcity.org/construction.

Sincerely,

ANGEL VARGAS
Civil Engineering Technician
