**BUILDING DEMOLITION-VARIOUS CITY LOCATIONS
(Juilliard Park)**

Dear Residents:

The City of Santa Rosa is contracting with AFM Environmental, Inc. to demolish the bathroom building at Juilliard Park. Work will begin in October and last approximately 1 week. The building is being removed because it has outlived its useful life and would cost more to bring it up to current standards, than to build a new building. Removal of the building will open up additional land within the park. This building being removed is part of a larger project that will remove unused buildings throughout the City of Santa Rosa. (see reverse for Project Limits).

Though temporary impacts to your neighborhood and the park are inevitable, our goal is to complete the work without creating any more disturbance than necessary. The Contractor will be advised that weekend work will not be allowed. If you have any questions or concerns, please contact me at the following number:

Al Hardwick, Construction Manager
Grant Bailey, City Project Manager

(916) 374-9526, Office
(707) 543-4508, Office

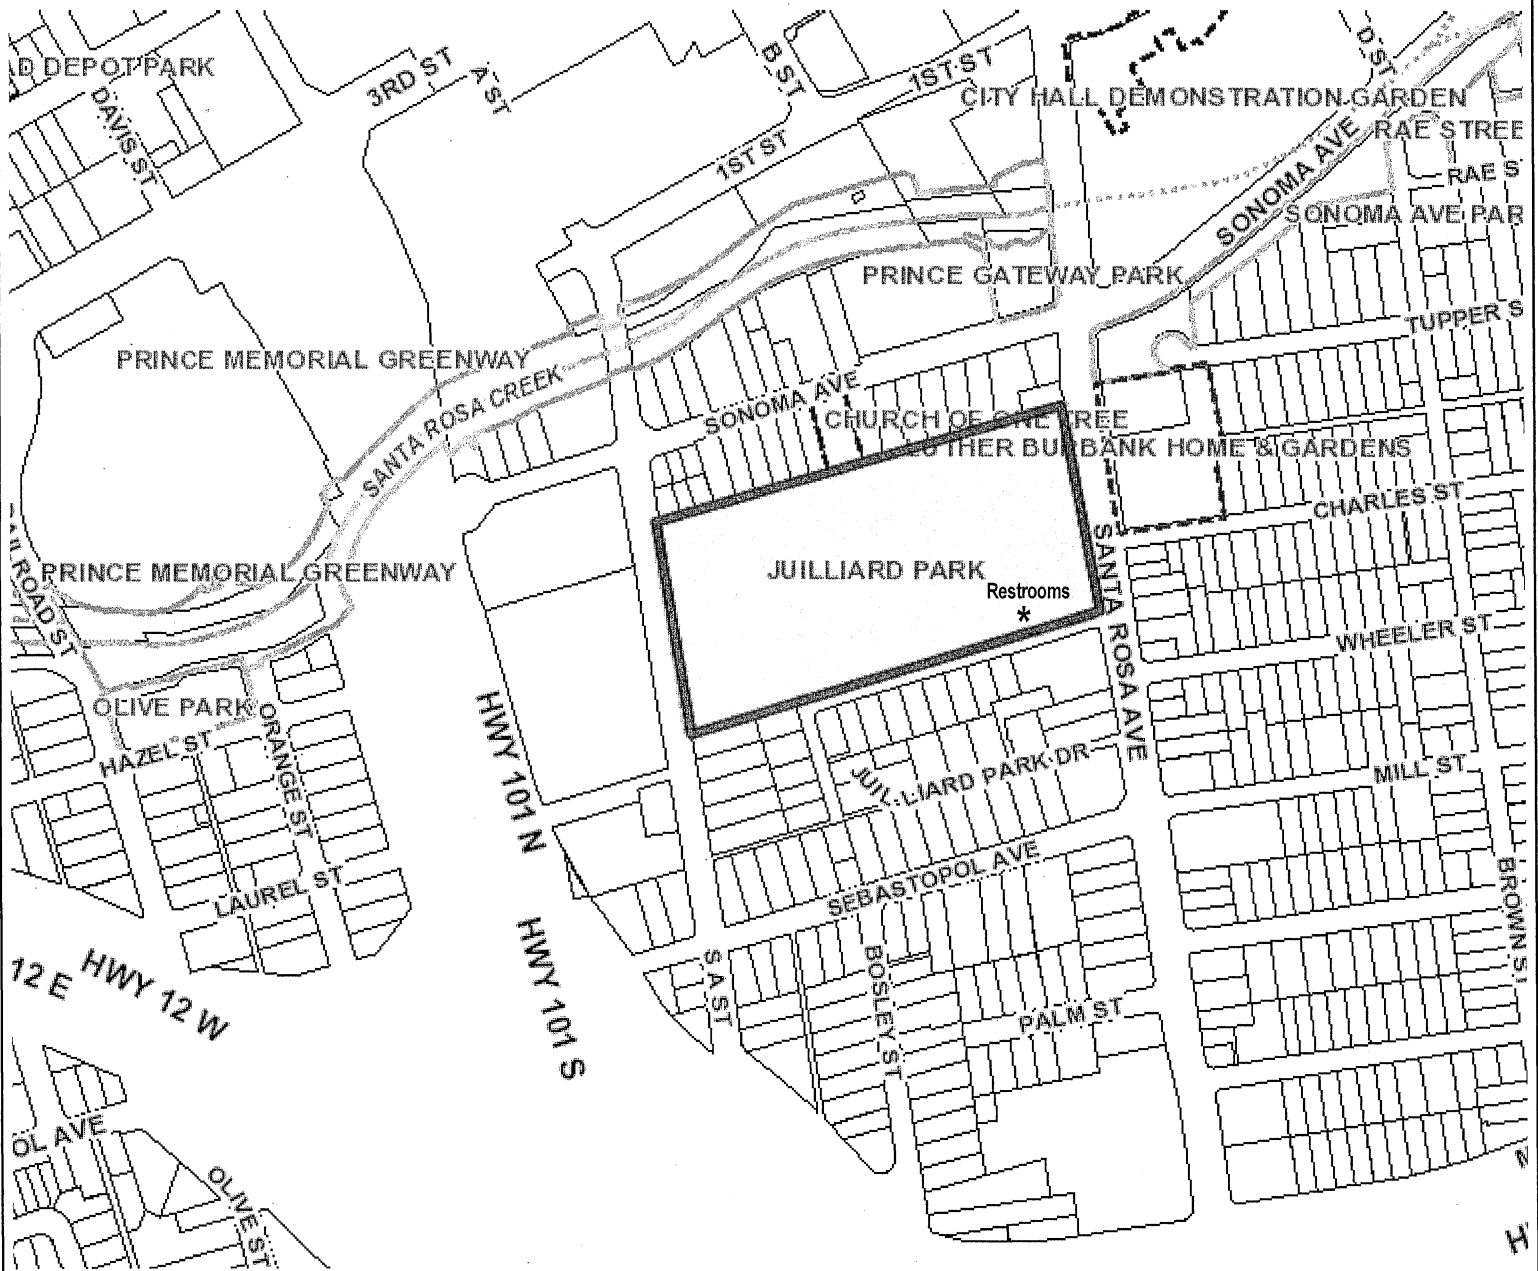

If you are aware of other occupants on your property who may not receive this notice, please share this notice with them or contact me with their address and I will notify them directly.

In addition to written communications like this, the City has created a special website where you can track the progress of this project. Simply go to www.srcity.org/CIP, view the map, and click on the blue map pin that corresponds to this project. You can also view the list of all Capital Improvement Program projects and find this project under Project ID No: 02162.

The City values your feedback. Please tell us how we did in your neighborhood by completing a post-construction survey. The survey will be delivered by a City representative to homes and businesses in close proximity to the construction site upon completion of this project. You may also access the survey online at www.srcity.org/construction.

Sincerely,

GRANT BAILEY, P.E.
Associate Civil Engineer
