TEMPORARY FIRE STATION 5 – PROJECT ID NO. 02183

Dear Residents:

The City of Santa Rosa is finalizing plans to construct temporary facilities for use as a fire station on the former Fire Station 5 property located at 3480 Parker Hill Road. The project scope includes: installation of a 24 ft. x 60 ft. modular fire house, installation of an 18 ft. x 36 ft. vehicle shelter, and installation of an approximately 300 square foot storage building. Additional site improvements are also required for utility connections, burned tree removal, privacy fence and disability access.

The initial phase of construction will include burned tree removal and privacy fence construction with an estimated start date of April 2018. Construction hours will be limited to weekdays from 8:00 a.m. – 5:00 p.m.

- Tree removal impacts to residents may include noise from construction activity, and temporary sidewalk and road closures with detours. Tree removal will be a maximum of three working days.
- The privacy fence will be a 6 ft. tall redwood fence. Impacts to residents may include noise from construction activities. The fence construction is anticipated to be completed by the end of May. Sidewalk and road closures will not be required for the fence construction.

The final phase of construction will be delivery and set up of the temporary structures, including associated site improvements, and has an estimated start date of late Spring. Residents will receive a letter notification at least two weeks prior to the start of construction with more information on anticipated start dates and duration of construction.

If you have any questions about the project scope or construction, please feel free to contact me at (707) 543-3769, or CMacdonald@srcity.org.

If you have any questions about Santa Rosa Fire Department operations, please contact Battalion Chief Jason Jenkins at (707) 543-3534, or JJenkins@srcity.org.

The City has created a special website where you can track the progress of this project. Simply go to www.srcity.org/CIP, view the map, and click on the blue map pin that corresponds to this project. You can also view the list of all Capital Improvement Program projects and find this project under Project ID No: 02183.

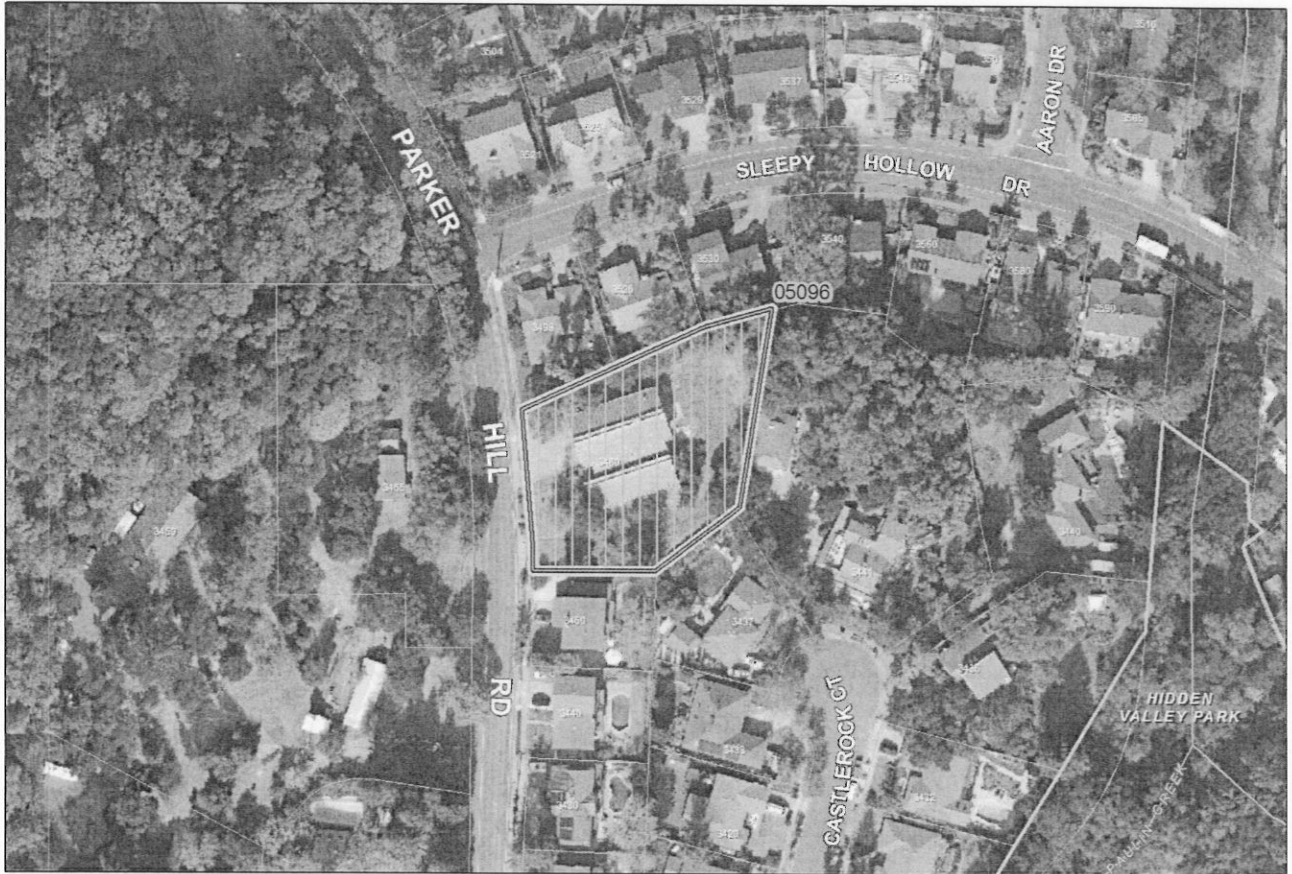

Sincerely,

CAMRON MACDONALD
Facilities Planning Coordinator
