FIRE-RELATED REPAIRS OF UTILITY STATIONS

Dear Residents:

The City of Santa Rosa is contracting with Pacific Infrastructure Corporation for construction of the above referenced project. Construction will begin in July 2020 and weather dependent, last through April 2021. This project will undertake rehabilitation at ten (10) potable water facilities and five (5) sewer lift station facilities that were damaged during the Tubbs Fire and must be repaired (see reverse for Project Limits).

Completion of this project is vital to the integrity of our community infrastructure and some of the benefits this project will bring to your neighborhood include: removing and replacing existing chain link, board and privacy fencing and gates, removing and replacing drip irrigation and related components, removing and replacing damaged facility signs with minor repairs to Asphalt and Concrete pavements as required and the removal and replacement of the existing damaged backup generator at the Stagecoach Road Lift Station. This repair work will take place in existing City owned parcels and right of way.

Though temporary impacts to your neighborhood are inevitable, our goal is to improve our community infrastructure without creating any more disturbance than necessary. The Contractor will be advised that daily and weekly activities such as mail delivery and garbage service must continue during the project. If you have special needs regarding access, or if you have any questions or concerns, please contact the Construction Manager or me at the following numbers:

Mark Jorgenson, Pacific Infrastructure Corp.
Eric Frye, City Project Manager

(925) 200-0253, Office
(707) 543-3858, Office

If you are aware of other occupants on your property who may not receive this notice, please share this notice with them or contact me with their address and I will notify them directly.

In addition to written communications like this, the City has created a special website where you can track the progress of this project. Simply go to www.srcity.org/CIP, view the map, and click on the blue map pin that corresponds to this project. You can also view the list of all Capital Improvement Program projects and find this project under Project ID No: 02208.

The City values your feedback. Please tell us how we did in your neighborhood by completing a post-construction survey. The survey will be delivered by a City representative to homes and businesses in close proximity to the construction site upon completion of this project. You may also access the survey online at www.srcity.org/construction.

Sincerely,

ERIC FRYE
Quality Control Associate
