## **MINOR WORK FOR WATER SERVICES AFFECTED BY THE TUBBS FIRE**

Dear Residents:

The City of Santa Rosa is contracting with APB General Engineering for construction of the above referenced project. Construction is anticipated to begin June 17, 2019 and last approximately 8 weeks.

In Spring of 2018, the City installed new water service lines at 54 locations and terminated them in the existing meter boxes in Fountaingrove area neighborhoods affected by the wildfires. This project will extend water service stub outs at these various locations to 12" behind the sidewalk or water meter box for future use when homes at these locations are rebuilt. This project will also replace existing sidewalk where meter boxes are replaced. If there is no existing sidewalk, the tubing will be extended to approximately 12" beyond the water meter box.

Completion of this project is vital to protecting the integrity of our community infrastructure and maintaining health and safety standards. If you have any questions or concerns, please contact the Construction Manager or myself at the following numbers:

Alfred Lee, Construction Manager  
Eric Frye, City Project Manager

(925) 989-1453, Office  
(707) 543-3858, Office

We realize that many homes in the area are at various stages of construction with other contractor activity in the area. We do not anticipate the City contract work to cause significant disruption to ongoing work. Our goal is to improve our community infrastructure without creating any more disruption than necessary as our work will be primarily confined to the sidewalk areas.

In addition to written communications like this, the City has a special website where you can track the progress of this project. Simply go to [www.srcity.org/CIP](http://www.srcity.org/CIP), view the map, and click on the blue map pin that corresponds to this project. You can also view the list of all Capital Improvement Program projects and find this project under Project ID No: 02240.

Sincerely,

ERIC FRYE  
Quality Control Associate
