FIRE DAMAGED STREET LIGHTS REPLACEMENT IN FOUNTAINGROVE

Dear Residents:

The City of Santa Rosa is contracting with ST. FRANCIS ELECTRIC for construction of the above referenced project. Construction will begin in January 2020 and last approximately 6 weeks. A total of 40 street lights will be replaced along South Ridge and Fir Ridge Drive and adjacent cul-de-sacs in the Fountaingrove area resulting from the 2017 Tubbs Fire (see reverse for Project Limits).

Though temporary impacts to your neighborhood are inevitable, our goal is to improve our community infrastructure without creating any more disturbance than necessary. The Contractor will be advised that daily and weekly activities such as mail delivery and garbage service must continue during the project. If you have special needs regarding access, or if you have any questions or concerns, please contact the Construction Manager or me at the following numbers:

Greg Loraditch, Construction Inspector	(707)543-3875, Office
Danny Chen, City Project Manager	(707)543-3911, Office

If you are aware of other occupants on your property who may not receive this notice, please share this notice with them or contact me with their address and I will notify them directly.

In addition to written communications like this, the City has created a special website where you can track the progress of this project. Simply go to www.srcity.org/CIP, view the map, and click on the blue map pin that corresponds to this project. You can also view the list of all Capital Improvement Program projects and find this project under Project ID No: 02246.

The City values your feedback. Please tell us how we did in your neighborhood by completing a post-construction survey. The survey will be delivered by a City representative to homes and businesses in close proximity to the construction site upon completion of this project. You may also access the survey online at www.srcity.org/construction.

Sincerely,

DANNY CHEN
Assistant Engineer
