STONY POINT RD UTILITY BOX ADJUSTMENTS AND SIDEWALK REPAIRS

Dear Residents:

The City of Santa Rosa is finalizing construction plans for utility box adjustments and sidewalk repairs on Stony Point Rd from Sebastopol Rd to south of Hearn Ave. The project intent is to provide sidewalk to adjust utility boxes installed during the PG&E overhead to underground conversion Rule20A project and repair gaps at various locations in the existing sidewalk. An estimated start date of Spring 2019.

Completion of this project is vital to the integrity of our community infrastructure. Some of the benefits this project will bring to your neighborhood include:

- Improving pedestrian access along Stony Point Rd by removing the temporary asphalt patches, adjusting utility boxes to finish grades, and repairing the sidewalks at the box adjustment locations.

Though temporary impacts to your neighborhood are inevitable, our goal is to improve our community infrastructure without creating any more disturbance than necessary. The Contractor will be advised that daily and weekly activities such as mail delivery and garbage service must continue during the project. Additionally, the Contractor will be advised the driveways are to remain open at all times. Please feel free to contact me at (707) 543-3914 (or e-mail at marvin@srcity.org) if you have any questions or concerns.

We will update you with another letter approximately two weeks prior to the start of construction. In addition to written communications like this, the City has created a special website where you can track the progress of this project. Simply go to www.srcity.org/CIP, view the map, and click on the blue map pin that corresponds to this project. You can also view the list of all Capital Improvement Program projects and find this project under Project ID No: 02254.

Sincerely,

MIMI ARVIN
Construction Quality Control Associate
