COURTHOUSE SQUARE BOLLARDS

Dear Residents:

The City of Santa Rosa is finalizing construction plans to install traffic rated bollards at the intersections of 3rd Street and Santa Rosa Avenue and 4th Street and Mendocino Avenue within Courthouse Square. In addition to the bollard installation, curb ramps will be replaced on the north side of Fourth Street at the intersection of Mendocino Avenue. The project is anticipated to take 8 weeks, with an estimated start date of March 2021 (see reverse for Project Limits).

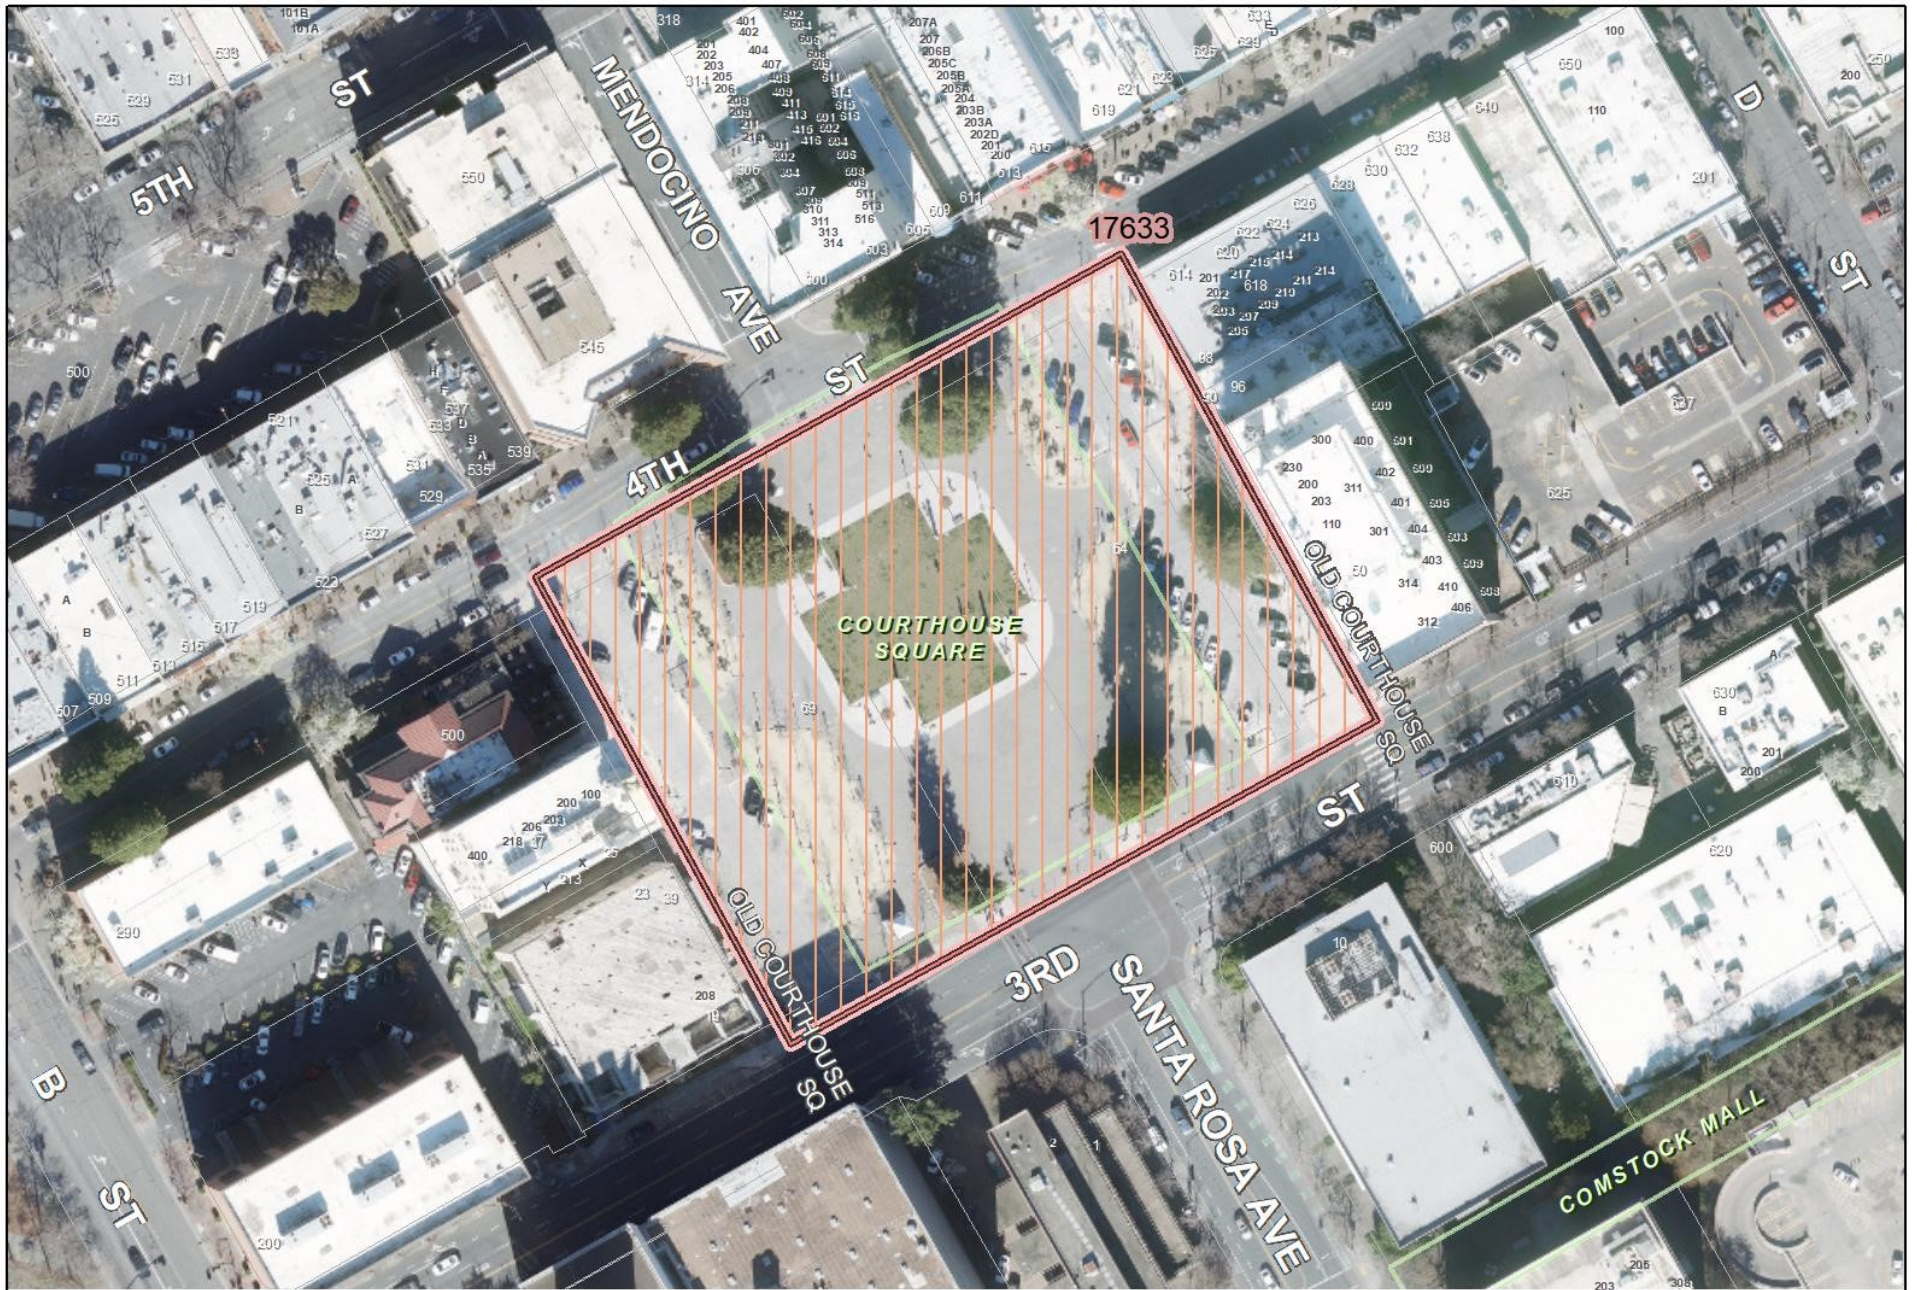

Bollards will be installed at the back of curb on the north and south sides of Courthouse Square, spanning approximately 85 linear feet at each location. Bollards will help protect Courthouse Square users from the possibility of vehicles entering the square from Mendocino Ave and/or Santa Rosa Ave.

Though temporary impacts to the area are inevitable, our goal is to improve our community infrastructure and usability without creating any more disturbance than necessary. The Contractor will be advised that daily and weekly activities such as mail delivery and garbage service must continue during the project. Courthouse Square will remain largely open during construction activities and residences and businesses fronting the Square should not be impacted. Additionally, the contractor will be required to maintain access to all dwellings and businesses throughout the duration of construction. Please feel free to contact me at (707)543-4508 (or e-mail at gbailey@srcity.org) if you have any questions or concerns.

We will update you with another letter approximately two weeks prior to the start of construction. In addition to written communications like this, the City has created a special website where you can track the progress of this project. Simply go to www.srcity.org/CIP, view the map, and click on the blue map pin that corresponds to this project. You can also view the list of all Capital Improvement Program projects and find this project under Project ID No: 02312.

Sincerely,

GRANT BAILEY, P.E.
Associate Civil Engineer
