**FOUNTAINGROVE PKWY PUMP STATION 3 TO RESERVOIR 3 TELEMTRY
CONTRACT NO. C02469**

Dear Residents,

The City of Santa Rosa is contracting with North Bay Excavation Inc. for the installation of a 2" conduit and telemetry line along Fountaingrove Pkwy connecting Pump Station 3 on Thomas Lake Harris Dr and Reservoir 3 on Fir Ridge Dr.

Construction will start in July 2024. The duration will take approximately twenty five (25) working days, but could change due to weather conditions. See reverse for project limits.

Many of the benefits this project will provide include:

- Provide additional protection for the communications line between Reservoir 3 and Pump Station 3
- Facilitate future maintenance and repair operations without necessitating disruptive excavation
- Maintaining a reliable connection to ensure the availability of sufficient water levels for the area

Although temporary impacts are inevitable, our goal is to improve our community without creating any more disturbance than necessary. The Contractor will provide notices for lane closures and alternative routes as necessary. If you have special needs regarding access, or if you have any questions or concerns, please contact me at the following number:

Felicia Ong, City Project Manager
Jared Wurtz, City Inspector

(707) 543-3864, Office
(707) 543-3843, Office

In addition to written communications like this, the City has created a special website where you can track the progress of this project. Simply go to www.srcity.org/CIP, view the map, and click on the blue map pin that corresponds to this project. You can also view the list of all Capital Improvement Program projects and find this project under Project ID No: 02469.

Sincerely,

[Felicia Ong \(Jun 11, 2024 08:56 PDT\)](#)
