## **RE: C00491 - R9C TANK DECOMMISSION AND DEMOLITION**

Dear Residents:

The City of Santa Rosa is contracting with Resource Environmental, Inc., for demolition of the above referenced project. The Project consists of decommissioning and demolishing the City water tank located at 4788 Bennett Valley Road. The project will begin in June and last approximately four months (see reverse for Project Limits). Project delays may occur due to Contractor performance issues, weather, and unforeseen site conditions during construction.

Though temporary impacts to your neighborhood are inevitable, our goal is to improve our community infrastructure without creating any more disturbance than necessary. The Contractor will be advised that daily and weekly activities such as mail delivery and garbage service must continue during the project. If you have special needs regarding access, or if you have any questions or concerns, please contact me at the following number:

Steven Scherbarth, Resource Environmental	(714) 321-0748, Cell
David Fradelizio, City Project Manager	(707) 543-3862, Office

If you are aware of other occupants on your property who may not receive this notice, please share this notice with them or contact me with their address and I will notify them directly.

In addition to written communications like this, the City has created a special website where you can track the progress of this project. Simply go to <u>www.srcity.org/CIP</u>, view the map, and click on the blue map pin that corresponds to this project. You can also view the list of all Capital Improvement Program projects and find this project under Project ID No: 00491.

The City values your feedback. Please tell us how we did in your neighborhood by completing a post-construction survey. The survey will be delivered by a City representative to homes and businesses in close proximity to the construction site upon completion of this project. You may also access the survey online at www.srcity.org/construction.

Sincerely,

avid Fradeligio

DAVID FRADELIZIO, PE Associate Civil Engineer
